Individual Notes:

The Mango litter overall is confident and self-assured. They show no stress in new situations, around new people, or circumstances, typically considered stressful. They are curious and investigative with new sites and sounds, including

those that should be considered startling. Overall, these puppies have good memory, focus, and problem-solving abilities average to their age and stage of development. They have excellent motivation for interaction and food. They have good motivation for toys. These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. They do use their mouth to initiate or engage in play, but have very good bite inhibition. They are rarely vocal. They have no red flags and show no possessiveness. These puppies are fairly consistent across-the-board with very few differences between them. Overall this litter has mid to moderate energy, however White Dot and Red Dot have moderate energy. These puppies are bubbly, happy and eager. They are content to explore and play on their own while being very personable and affectionate. They are silly, social and well-balanced. These puppies should adapt well into most home.
