[Temperament Test Video](#)

The Virginia litter is a beautifully colored group of tiny teddy bear Goldendoodles. They are all so entertaining and bring a little something different to the temperament table.

This litter overall was a little immature but given time to adjust, they became comfortable with engaging and exploring.

They were motivated by toys and human interaction.

All were good with handling and did not show sign of stress. They were unsure but not stressed. Adjusted accordingly.

They are happy and loving puppies and there is a temperament for almost every family dynamic within the litter.

Virginia Boys TT

Blue is more Independent and will explore on His own. Mid level energy. He took a little more time to warm up but once he felt comfortable he enjoyed play and interacting.

Green is very motivated by human interaction. He seeks out attention. Potential service/therapy. Moderate energy

Orange is a good balance of play and independence. Happy and self assured.

Orange and green have good focus and respond to new sounds with curiosity.

Blue also responds but with a little more caution.

All of the boys are good with handling and do not stress when being interacted with.

Overall

This litter overall was a little immature but given time to adjust, they became comfortable with engaging and exploring.

They were motivated by toys and human interaction.

All were good with handling and did not show sign of stress. They were unsure but not stressed. Adjusted accordingly.

They are happy puppies and there is a temperament for almost every need within the litter.

They will definitely bring joy and keep you smiling.

Health Notes

Keeping an eye on underbites.
