Individual Notes:

The Martina litter overall is confident and self-assured. They show little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. These puppies are curious and investigative with sights and sounds, including those that should be considered startling. Overall, these puppies have good memory, focus, and problem-solving abilities, above average for their age and stage of development. They have good motivation for food, toys, and interaction at fairly equal and balanced levels. These puppies do use their mouth quite a lot to initiate or engage in play but have good bite inhibition. They are rarely vocal. They are all comfortable and tolerant of handling and restraint. These puppies have no red flags and show no possessiveness. They have moderate energy. These puppies are fairly consistent with few differences between them when comparing them side-by-side; Blue is a little more engaging than his two sisters, Pink is a little more independent than the other two puppies in the litter. All of these puppies are personable and engaging while still being content to explore and play on their own. Pink is the most respectful of the group; she is gentle by nature. Overall, these puppies are curious, playful, social, and happy. They are eager and affectionate. These puppies are well-balanced and should adapt well into most any home.

Health notes:

Blue has an underbite
