Individual Notes:

The Zelda litter overall is confident and self-assured. They show little to no stress in new situations around new people or in circumstances that are typically considered stressful. Blue Dot and Orange need a little time to adjust, but do so very well on their own. These puppies are curious and investigative with new sites and sounds including those that should be considered startling. Overall these puppies have good memory, focus and problem-solving abilities above average for their age and stage of development. They have excellent motivations for interaction and good motivation for food and toys. These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. They rarely use their mouth to initiate or engage in play, and have excellent bite inhibition if they do use their mouth. They are also rarely vocal. These puppies have no red flags and no possessiveness. They are all comfortable and tolerant of handling and restraint. These puppies actively seek out interaction and engagement. These puppies overall are pretty well-balanced. They are content to explore and play on their own while still being very personable and affectionate. Overall, they are gentle with their interactions even the ones that can be a little more pushy. They are curious and happy. They all have Moderate energy.

Orange and Blue dot need a little time to adjust to new situations, but do so very well and on their own. They are naturally very gentle and respectful, and will do best in a home that is going to allow them to adjust to new things without being overwhelmed.
