- Litter Overview

This litter is confident, playful, respectful, and gentle, showing no fear of new sights or sounds. With mid energy levels, Green and Blue stand out as adaptable puppies who would thrive in almost any home environment. This litter is composed of naturally cool, well-mannered puppies, each with unique strengths that make them ideal for a wide range of homes. All the puppies are gentle during handling, play well together, tire out quickly, and settle in nicely. They exhibit excellent bite inhibition and consistent temperaments, with minimal differences between them. These puppies are well-prepared to excel in both home settings and training programs, demonstrating exceptional potential across the board. Overall, this is an outstanding litter, perfectly suited for a variety of environments.

Martha Blue

- POTENTIAL THERAPY CANDIDATE:

- Breeder's Pick 16-Week Prep School

- **Energy Level:** Mid Level
- **Personality:** Martha Blue is a happy-go-lucky puppy who enjoys playing on his own. He's independent and not needy at all. Occasionally, he may whine when he's unsure of what to do, but it's nothing significant. He's an easygoing and content little guy. He is exceptionally people-oriented and very intuitive, making him an excellent therapy dog candidate.

Martha Green

- POTENTIAL THERAPY CANDIDATE:

- **Energy Level:** Mid Level
- **Personality:** Martha Green is confident and easygoing. He's happy to explore and do his own thing, making him a well-balanced puppy. He's a middle-of-the-road kind of guy, comfortable in various situations. He has a slight underbite, which does not affect his overall health or behavior. He is exceptionally people-oriented and very intuitive, making him an excellent therapy dog candidate.

HEALTH NOTES:

- **Martha Green:** Slight underbite noted, which should adjust as he matures.
- This does not impact his overall health or behavior. He has been cleared by the vet, and this condition will not affect his daily life or cause any pain or discomfort. While many puppies outgrow mild underbites, even if he doesn't, he will still be a healthy and happy puppy.
