Pink - (BP) happy girl who's tail wags faster the. more you talk to her. Very social and prefers human interaction over anything. She will work hard to get and keep your attention.

Eager to engage and is no respecter of personal space. Very curious of new sights and sounds. She will do great with training. Exuberant and eager to please. Moderate energy level.

Potential service candidate.

Red - a little more reserved. Mannerly and gentle with her interactions. She's away from too much movement or noise.

Calms so nicely when handled .

Not too needy. She can entertain herself and explore independently. She likes to be the one to initiate engagement . Easy to be around.

No red flags and should transition well to new home environment.

Mid-level energy.
