Blue - sweet and gentle. He was a little unsure to start. Mid level energy. He was pretty mannerly in the way he interacted.

Good with handling. Mild mannered puppy.

He sits nicely and waits for you to engage.

Could get overwhelmed in too much of a household. No red flags.

Green - sweet and gentle. Unsure to start but he didn't take long to warm up.

He figured out he loves Cassie bear balls and getting head scratches. Mid- level energy. Content to play on his own.

Uses his mouth to explore new things but with little pressure applied. Good with handling.

Pink - happy fun and curious. She will try her best to get your attention. Vocal when she wanted something.

Very focussed on what's going on.

Moderate energy level. No red flags. Needs an outlet to use her smart puppy mind.

Would be a great prep school candidate.

Red - probably the happiest puppy around. When she runs it looks like she has a big smile on her face. She is silly and

comedic. Loves toys and prefers hopping everywhere she goes. Moderate energy level. Great focus, would be excited to train.

No red flags but would need good activity level to be satisfied.
