Litter Overview:

The Piper litter is a naturally respectful, confident group with a balanced energy and good self-assurance. They are unbothered by loud or startling noises and exhibit a calm, self-assured nature. The males are more independent than their sister Pink, preferring exploration and play over frequent interaction. These puppies are full of happy, silly energy that brightens any room, and they play well together, showing excellent tolerance and adaptability. They are well-suited for a variety of home environments.

Piper Green

- **Energy Level:** Mid to Moderate
- **Personality:** Green is a bubbly, happy puppy who brings a lively energy to playtime. He has a special love for toys and interacting with his littermates. Over time, he becomes more affectionate with people, though he can be a bit mouthy when initiating play. Green's playful and friendly disposition, combined with his growing affection for people, makes him a delightful companion. No red flags were noted.

Piper Orange

- **Energy Level:** Mid to moderate
- **Personality:** Orange is an independent and happy puppy who is most at ease when left to explore or play with toys. While he can be a little awkward with handling and doesn't currently enjoy being held, he shows potential to grow more comfortable as his confidence builds. He may whine slightly when unsure, but with time and patience, he is likely to become more self-assured. Orange's focus on toys

and playtime makes him well-suited for a home that appreciates his independence. No red flags were noted.

Piper **Blue Dot**

- **Energy Level:** Mid to moderate
- **Personality:** Blue Dot is confident, self-assured, and balanced in his demeanor. He's a middle-of-the-road puppy who is easygoing and has a naturally "cool" temperament. Blue Dot enjoys a mix of play and independent exploration, making him a low-maintenance, enjoyable companion. His balanced nature and adaptability make him a great fit for a wide range of home environments. No red flags were noted.
