### Poppy Litter Overview:

The Poppy litter took just a moment to adjust to their new environment but quickly warmed up to showcase their happy, outgoing, and engaging personalities. These puppies are confident, self-assured, and highly social. They love human interaction and are naturally curious, making them delightful companions. All puppies in this litter have moderate energy levels, making them versatile for a variety of home types.

### Health Notes:

- **Blue:** Has a mild underbite that has been thoroughly checked and cleared by our veterinarian. It is expected that he will most likely grow out of it as he matures. Even if it remains, it will not cause him any pain, discomfort, or any issues with his daily life or routine.
  - **White:** Has an umbilical hernia.
- 

### Poppy **Pink Dot** (*Breeder's Pick ; S.U.P.E.R Puppy Program 16 Weeks*)

- **Prep School Dates: 1.30.25 -5.22.25 (16Wk)**
- **Energy Level:** Moderate
- **Personality:** Pink Dot is confident, self-assured, and wonderfully balanced. She is equally content to interact with people or explore and play independently. Her social appropriateness, gentle nature, and middle-of-the-road temperament make her an exceptional choice for any home. Her incredible personality ensures she will thrive wherever she goes.

---

### Poppy **Pink** (*Breeder's Pick | S.T.A.R Puppy Program 8 Weeks*)

- **Prep School Dates: 1.30.25 - 3.27.25 (8WK)**
- **Energy Level:** Moderate
- **Personality:** Pink is curious, confident, and self-assured. She is highly intrigued by human interaction and works hard to engage. Her curiosity often leads her to explore with her mouth, but she has great

bite inhibition. Pink's balanced energy and engaging nature make her an excellent companion and a top pick from this litter.

---

### Poppy Red

- **Energy Level:** Moderate
- **Personality:** Red exudes confidence and independence. She is highly motivated by toys and enjoys playing with her littermates. While she engages with people, her primary focus is playtime with toys. Red can be a little mouthy with bite inhibition that could use improvement. Four weeks of Prep School is recommended unless her new family has experience navigating typical puppy behaviors. With guidance, Red's naturally sweet, affectionate, and loving personality will shine.

---

### Poppy White

#### **POTENTIAL SERVICE CANDIDATE**

- **Energy Level:** Moderate
- **Personality:** White is eager to engage and thrives on human interaction. She is confident, self-assured, and highly motivated to connect with people. While she occasionally uses her mouth, she

is easily redirected. White's enthusiasm for human interaction and willingness to work make her a strong candidate for service work.

---

### Poppy **Blue**

- **Additional \$500 due to rare coloration**
- **Energy Level:** Moderate
- **Personality:** Blue is confident and self-assured, with a playful and toy-motivated personality. He is naturally curious and often finds a toy to keep himself entertained. While he loves interacting with his littermates, toys are his primary motivator. Blue can be a bit mouthy due to his explorative nature, with bite inhibition needing some refinement. Four weeks of Prep School is recommended to guide these behaviors and ensure positive development. He is naturally sweet, loving, and full of charm.
