### Iris Litter Temperament Overview

The Iris litter overall is confident and self assured after a little time to adjust into new situations. White and pink adjusted the fastest, but all of them adjusted if given time. These puppies showed little to no stress in new situations, around new people, and in circumstances that are typically considered stressful. These puppies reacted appropriately to new sights and sounds including those that should be considered startling. When they did startle, they recovered right away on their own. These puppies overall have good memory, focus, and problem-solving abilities average to their age and stage of development. They also have good motivations for interaction, food, and toys at fairly equal levels. These puppies overall were socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. They are naturally gentle and respectful. They rarely use their mouth and have excellent bite inhibition if they do. These puppies have no red flags and show no possessiveness.

### Iris Blue

- **Energy Level:** Mid
  - **Personality:** This entire litter is very similar with very few differences between individual puppies. Blue's energy level may adjust as his confidence comes up, but overall he is well balanced and should adapt well into most any home. This adjustment may require a little time to occur without being overwhelmed in some circumstances.
  - **Weight:** 3.08
  - **Health Notes:** none noted
