### Gabby Boys Temperament Overview:

The Gabby litter overall show some stress in new situations, around new people, and in circumstances that are typically considered stressful, once allowed to adjust they do well. They have good memory, focus, and problem-solving abilities above average for their age and stage of development. They have excellent motivation for interaction and good motivation for food and toys.

These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. They rarely use their mouth to initiate or engage in play and have excellent bite inhibition if they do. A couple of the puppies are vocal in their effort to get and keep your attention, but it is easily managed and or redirected . These puppies overall have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint.
