Lucille Litter Temperament Overview:

The Lucille litter overall is confident and self assured. They show little to no stress in new situations, around new people, or in circumstances typically considered stressful. These puppies are curious and investigated with new sights and sounds including those that should be considered startling. These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people.

They are rarely vocal. They do use their mouth to initiate and engage in play, but have good bite inhibition. They are easily redirected and managed when they do use their mouth to play. These puppies have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint. They actively work to get interaction. These puppies are fairly consistent and are all very well balanced.
