Mango Girls Temperament Overview:

The Mango litter overall is confident and self-assured. They show no stress in new situations, around new people, or in circumstances typically considered stressful. These puppies are curious and investigative with new sights and sounds. They are motivated by interaction, food, and toys at fairly equal and balanced levels. They have good memory, focus and problem-solving abilities, average to their age and stage of development.

These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. They do use their mouth to initiate and engage in play, but have very good inhibition and can be redirected. These puppies have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint.
