Melanie Boys Temperament Overview:

The Melanie litter overall is very confident. These puppies have no fear and take everything in stride. They puppies show no stress around new people and new circumstances or in new situations. These puppies are curious and investigative with new sights and sounds, including those that should be considered startling. These puppies have outstanding memory, focus, and problem-solving abilities, well above average for their age and stage of development. They have excellent motivation for interaction, food, and toys at fairly equal and balanced level. These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs.

While their energy level is on the higher end, these puppies are content to explore and play on their own while still being very personable and engaging. These puppies have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint, although most of these puppies can get wiggly due to the excitement of the interaction. These puppies are rarely vocal, they do use their mouth to initiate or engage in play but have very good bite inhibition. I recommend Prep School for these puppies across the board because of their energy.
